

Group of Companies

ST GROUP

CREATING EXCELLENCE
FOR MORE THAN 20 YEARS

ABOUT THE COMPANY

ST GROUP OF COMPANIES

Founded in 1998

For 25 years in Russia we

Implement and deliver the most modern tools

develop technological processes

design and manufacture special tools, according to our customer's drawings

carry out maintenance of applied tools on all technological stages: from technology development and test performance to integrated supply and follow-up engineering support.

ABOUT THE COMPANY

50 000 items

of metal-cutting and back-up tools, machine tools, grinding tools, pneumatic tools, measuring tools

More than **10 000** positions
available from our own warehouse in Moscow

More than **700** customers from
production enterprises cooperate with us

More than **25** regional
representative offices in Russia

30 highly qualified
technicians in house

ABOUT THE COMPANY

25 years
of experience and success

Setting up a metrological laboratory based on Mitutoyo measuring equipment

2019

Launch products under own brand – FINIST

2017

More than 100 professionals in the company.
17 representatives operating all around Russia.
Storage capacity over 1 000 m²

2015

Monocatalogue creation

2013

Finished goods warehouse establishment.
(More than 10 000 items)

2008

Main brand portfolio building

2003

ST Group of companies imports and sells tools from leading global manufacturers

1998

ST
GROUP

Types of products

-  Metallcutting tools
-  Back-up tools
-  Power tools
-  Carbide tools
-  Machine tools
-  Pneumatic tools
-  Measuring tools
-  Measuring units and machines
-  Grinding tools
-  Tool presetters

MAIN LINE OF PRODUCTS

We exclusively distribute tools
of 18 brands in Russia

AFC (Germany)

Workpieces from hard alloy for cutting tools
manufacture

Carmex (Israel)

Carbide tools for thread milling and turning, tools for Swiss-type
machines

Eroglu (Germany)

Back-up tools for drilling, boring and milling machines and
CNC lathes

Dijet (Japan)

Carbide tools for turning, milling and drilling

Kemmer (Germany)

Turning tools for parting off and grooving

Kitagawa (Japan)

Clamping devices and machine tools

MAIN LINE OF PRODUCTS

We exclusively distribute tools
of 18 brands in Russia

Biax (Germany)

Pneumatic tools

F.Britsch (Germany)

Cutting tools and tooling for Swiss-type machines

Finist (Russia)

Carbide inserts for turning operations

NTK (Japan)

Ceramic turning tools, tools for Swiss-type machines

PWB Systems (Switzerland)

Tools setting devices

Fhusa-TSA (Spain-Argentina)

Gear tools

MAIN LINE OF PRODUCTS

We exclusively distribute tools
of 18 brands in Russia

EFFGEN Effgen (Germany)
Diamond and CBN grinding tools

**HAMMOND
AND COMPANY** Hammond & Co (United Kingdom)
Deep drilling tools

 Integi (Spain)
Knurling tools and rotary broaching heads

 KOLB & BAUMANN GmbH & Co. KG (Germany)
Gauges, Setting standards, precision parts

 QCT (USA)
Axial solid carbide tool

 ZENITOLS (Italy)
Turning tool holders with mechanical mounting of replaceable inserts

MAIN LINE OF PRODUCTS

General distributor in Russian Federation

Mitutoyo Mitutoyo (Japan)
Measuring tools, measuring units and machines

YG-1 (South Korea)
Axial solid tools from hard alloys and high speed steels

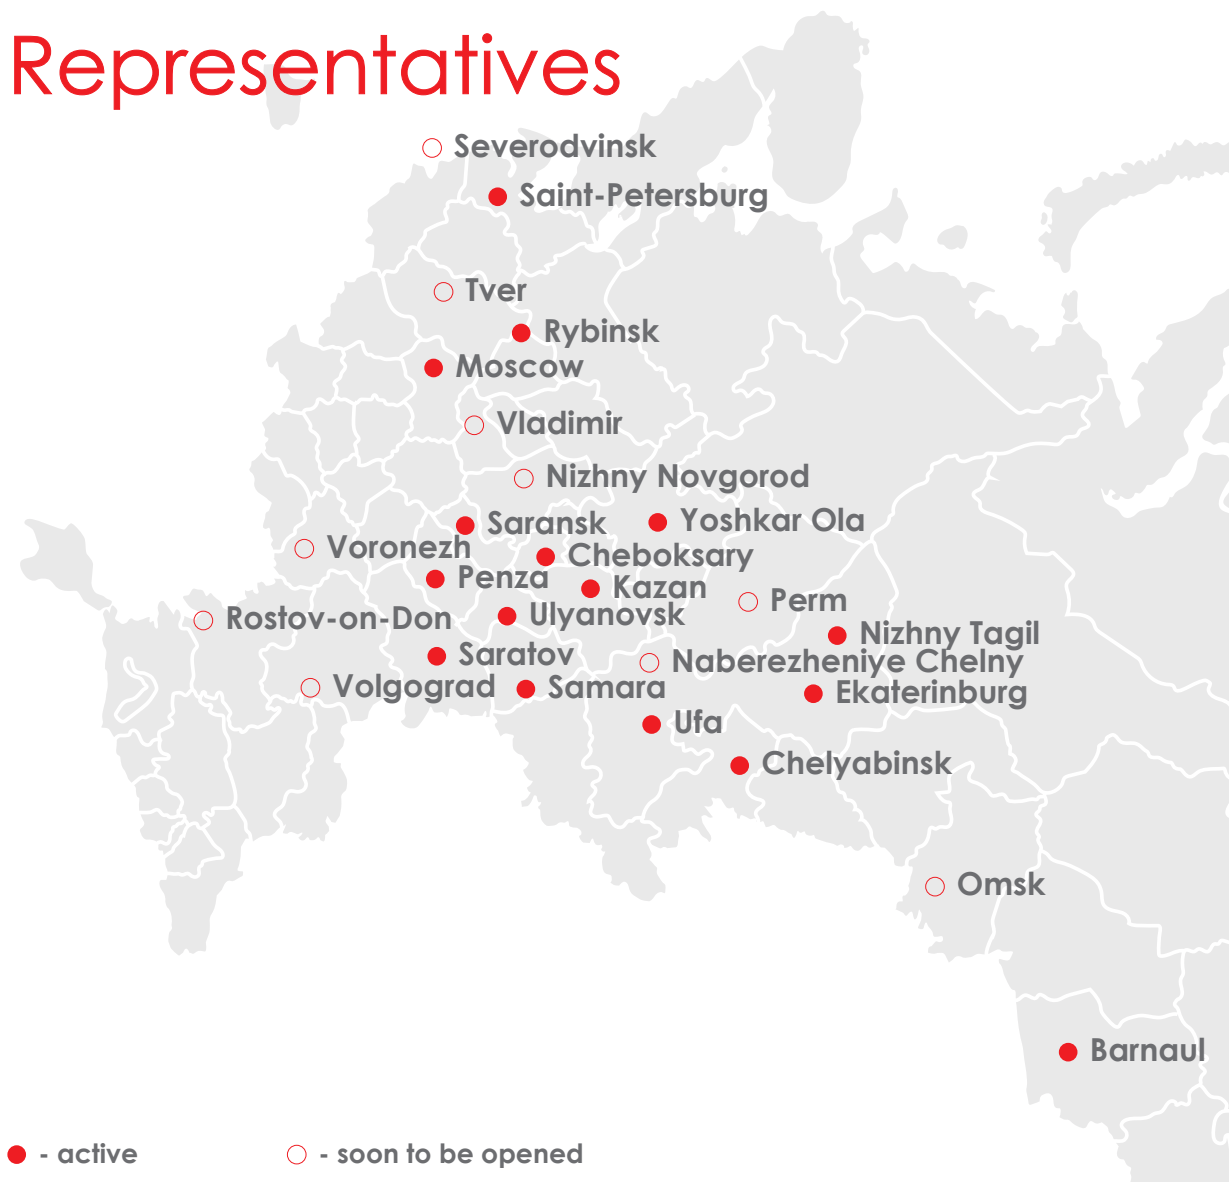

TYROLIT Tyrolit (Austria)
Diamond and abrasive tools for grinding
and dressing

heimatec[®] Heimatec (Germany)
Prazisionswerkzeuge
Power tools for turning and milling machines

SAV[®] SAV (Germany)
Magnetic, vacuum and hydraulic systems to mount
workpieces on metal-cutting machines

BTA TiefbohrSysteme[®] (Germany)
Deep drilling tools

Representatives

TECHNICAL EXPERTISE

Highly qualified technical support

30 people

people in our technical department including:

- Metrological Bureau **3** people
- Gear and hard-cutting tools bureau **3** people
- Grinding and super abrasive tools bureau **2** people
- Regional engineers **20** people

Supervision of tool implementation

- ✓ Tool selection and jiggig for specific machining conditions
- ✓ Development and optimisation of technological processes with the use of advanced tools
- ✓ Technical assistance in tool usage
- ✓ Work with technical tasks assigned by customers
- ✓ Conducting team work to launch new products
- ✓ Test performance in customer's production conditions, seminars at the customer's site

TOOL IMPLEMENTATION

Tests at enterprises

More than
300
tests annually

About
80%
of positive results

Own product catalogue

- in Russian
- More than 30 000 items
- 1 400 pages
- Annual update and continuous replenishment

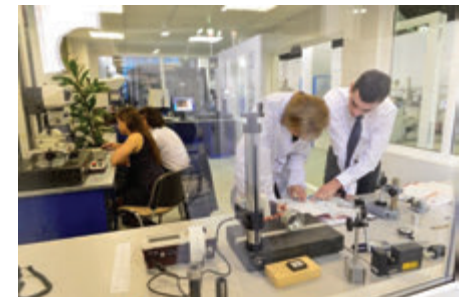

Warehouses and logistics

- More than 10 000 items in our warehouse in Moscow
- Tool supply from our partners' overseas warehouses twice a week
- Forming warehouse program «Upon customer's request»

Mechanical Engineering Technology Center

- ✓ Show room
- ✓ Fine turning technologies
- ✓ Production technical support
- ✓ Training
- ✓ Conference hall
- ✓ Metrological laboratory

Offline and online Training

- Seminars at the customer's site
- Seminars at the Center of Engineering Technology, Moscow
- Webinars

Staff development programmes

- Technical competences
- Commercial competence
- Managerial competence

Competitiveness

- ✓ Leader in machine distribution
- ✓ Leader in tools distribution
- ✓ Leader in engineering
- ✓ Leader in technical support

THESE LEADERSHIP SKILLS ARE
**OUR UNIQUE COMPETENCE
OF THE COMPANY**

Thank you
for your attention!
